TDS 0815 REVIEW: 01/2015

Rethane FMP 646 Component A: 646.9100 Component B: 846.0225

Rethane FMP 646 uses specially selected raw materials, showing excellent resistance to weathering, good color and gloss retention. Also it is overcoatable, easy to apply to conventional spray and drying fast.

TECHNICAL CHARACTERISTICS

TYPE

Aliphatic polyurethane topcoat, two pack system.

USAGE

Suitable for use over epoxy primer, as in steel structures, industrial equipment, marine and offshore. Recommended atmbém as external lining of tanks and pipes.

TECHNICAL INFORMATIONS		
COLOR	White	Other colons places consult
FINISH	Glossy	Other colors, please consult.
VOLUME SOLIDS	40 % ± 2	According to ISO 3233
WEIGHT PER LITER	$1,000 \pm 0,05 \text{ g/ml}$	According to ASTM D 1475
FLASH POINT	32°C	
MIXING RATIO		Weight Volume
	Comp. A	100,0 15,0
	Comp. B	6,4 1,0
POT LIFE (25°C)	4 h	
INDUCTION TIME	30 to 35 min	
THEORETICAL SPREADING RATE	10,0 m²/l - 40 μm	
WET THICKNESS	100 μm	
DRY THICKNESS	40 μm	
DRYING TIME, for 40 μm		25°C
		Minimum Maximum
	Touch	10 min
	Handle	3 h
	Recoat	6 h
	Temperature	Should be between 0 to 40°C
ENVIROMENTAL CONDITIONS	Relative Humidity	Between 30 to 85%
	Dew Point	Surface temperature is at least 3°C above dew point
	Thinner	440.0000
	Brush	It is not necessary dilution. This method must be used only for retouch and backing of welding cords and corners.
APPLICATION	Roller	Dilute up to 10% (vol.) with recommended thinner. Must be used solvent resistant roller (sheep wool). The wool must be cutted (small size) to avoid blistering during the application.
	Conventional Spray Gun	Dilute up to 10% (vol.) with recommended thinner. Conventional DeVilbiss JGA 503 FX 704 spray gun or similar. Spray pressure between 2,5 to 3,0 kgf/cm² (35 to 43 psi). Tank pressure between 0,5 to 1,5 kgf/cm² (21 to 35 psi).
	AirLess Spray Gun	Dilute up to 10% (vol.) with recommended thinner. Use nozzles between 9 to 19 and pump pressure between 140 to 175 kgf/cm ² .

Rethane FMP 646

Component A: 646.9100 Component B: 846.0225

SURFACE PREPARATION	Over recommended primer	The surface must be dry, free of contaminants such as salt deposits, oil, grease, fat, dust, etc.	
	Recommended Primers	Revran PLB 530 (530.0490), Revran PAA 540 (540.0495), Revran WBC 524 (524.0499) and Rekomox PHB 515 (515.0848). For other primers, please contact our Consultants.	
	Coated Surfaces	The surface must be clean and free of contaminants as oils, fat, grease and dust. Must not present peeling's areas. Proceed light sanding (220) to break the gloss.	
	Recommended TopCoat	Not applicable	
SHELF LIFE	12 months		
UN NUMBER HAZARD NUMBER	1263 33		
IMPORTANT RECOMMENDAT	IONS		
	1. The practical spreading rate of the product varies according to the applied thickness, application method and techniques, type and rugosity of the surface and ambient conditions.		
	2. The weight/l, viscosity and drying values were obtained in laboratory at a temperature of 25°C. At an altered temperature, the results might be different from the specified ones.		
	3. Pot life is shortened by higher temperature and by the increase of catalyzed volume.		
	4. Component B consists of isocyanate, which is reactive with moisture in the air. Therefore, every use of the product, close the container as soon as possible so that does not lose its efficiency.		
	5. For aluminum color, a coat of the product Rethane DHG 652 colorless should be applied to avoid staining of the film, due to the presence of water and/or moisture, and also due to handling parts already painted.		
SAFETY PRECAUTIONS			
		of this product can be hazardous to health and cause fire or ut first taking all appropriate measures to prevent property	
	2. <u>Storage:</u> keep the product i 40° C. Must not be directly ex	n sheltered, well-ventilated areas. Maximum temperature: posed to the sun.	
	3. <u>Flammable:</u> flammable prod do not smoke nearby.	duct, which must be kept distant from ignition sources, and	
	4. <u>Inhalation:</u> Avoid breathing drying.	vapors, keeping proper ventilation during application and	
		ective clothing and masks, goggles, etc. Do not eat or drink s to be near the application area.

Rethane FMP 646

Component A: 646.9100 Component B: 846.0225

HEALTH HAZARDS

- 1. Skin contact: wash affected area thoroughly with neutral soap.
- 2. <u>Clothing contact:</u> remove clothing and wash it.
- 3. <u>Leakage</u>: Isolate the area, and do not smoke nearby. If large quantity leaked in confined area, wear protective masks. Do not inhale vapors. Stop leakage with sand, sawdust or soil, and transfer liquid and solid to separated recipients for disposal.
- 4. <u>Fire:</u> protect non-affected recipients with water spray. Extinguish fire using carbon dioxide, foam or dry chemical.
- 5. Eyes contact: flush eyes with large amounts of clean water for at least 10 minutes, and get medical attention immediately.

<u>IMPORTANT:</u> For further information consult the product MSDS (Material Safety Data Sheet).
